About me

Computer engineering student eagerd to expand the limit of programming and designing

Intrested in Web Develpment and Desiging.

I like to play games so that means, failure doesn't mean the game is over, it means try again with experience.

Education

Bachlor in Computer Engineering

Advanced College of Engineering and Management

Kopundole, Lalitpur, Nepal

2071-2074

HSEB (+2)

Uniglobe College

Kamaladi, Ganeshthan Kathmandu, Nepal

2071-2073

Personal skills

> Sociability

> Punctuality

> Creativity

> Positivity

Experience/Projects

Image Encryption and Decryption

We as a team of three constructed a Image Encryption and Descryption using AES, bit-level and RSA as our minor project. G- Colab was used as main plateform to construct.

Contact Map Prediction of Protein Using Deep Learning

We as a team of four are currently undertaking this project as our major project. Training and build is using various APIs on python like Keras and Tensorflow

Portfolio

I creadted my own portfolio using HTML, CSS, JavaScript. You can find my portfolio on : https://dumresarkar.github.io

Professional Skills

C / C++ — 80%

HTML / CSS — 86%

JavaScript — 45%

Adobe Illustrator — 58%

Hobbies

Games

Music
